1	just to slow down a bit
2	Na
3	NA
4	N/A
5	My only advice would be to just slow down on some slides so that students could keep up.
6	Include more interactive activities to engage students.
7	Great Class. No need to change anything.

Question:	What are the practices and/or behaviors that you would like this instructor to CONTINUE to exhibit or display (things he or she already does)?
Response Rate:	76.92% (10 of 13)

1	to keep on smiling
2	Very good pacing and examples.
3	The professor was very nice and explained everything well. Continue being supportive and providing clear explanations.
4	The homeworks are helpful
5	Same things as he is currently doing.
6	Keep being patient and answering student questions, and keep being fast to respond to emails and assist your students.
7	I personally like the ways Mr. Toy teaches the class. For me I have struggled in the class and had to retake and the way he teaches is perfect.
8	He always keeps the lecture clear and simple, and that's what I like about him.
9	Everything that he did was great, nothing to change and nothing to add
10	Alex presents everything in a clear cut and easy to understand way. His work is thorough and despite the information being challenging he makes it was easy to follow along with. As long as you show up and put in the effort you can see that Alex does everything he can to set you up, and it works. The only thing I would say would be to slow down a little bit when talking, sometimes we move through the material fast and it's hard to take notes. Otherwise, I was very happy to have Alex as a professor this semester, this has been my 2nd year at ASU and he has been one of, if not the most helpful teachers at the school. Hopefully ASU finds and keeps more professors like him. Best of luck Alex thanks for everything!!
